

MONTHLY REPORT

NHA - TRANG

APRIL 1970

GENERAL

The month of April began with a bang and ended very quietly. Nha-Trang airbase was hit twice during the first week of April. The airport lost part of the fuel depot while one round impacted within two hundred feet of the JN house killing one and wounding two Vietnamese.

Business however, slacked off a bit from last month which was the high month for 1970 so far.

TRAFFIC

Traffic activities remained normal throughout the month with a decrease in aircraft handling and workload felt. Attached statistics relate the situation.

CUSTOMER RELATIONS

Relations with all customers remain good to excellent - No problems here.

OPERATIONS

A. Communications -
The better side of the HF ground station repeater broke
remained out for the better part of the month. Parts and tubes
were obtained and the unit is now operational.

We still receive interference and background noises on the HF and SSB receivers. Our next approach is to relocate the COMS antennae.

B. FLIGHT EFFICIENCY (See attached)

C. ARRIVAL AND DEPARTURE COMPARISON

	<u>April</u>	<u>March</u>	<u>1969</u>
Arrival	480	508	573
Departure	479	510	571
ACN	193	207	324

D. DELAYS

Percentage on time	95%	97%
--------------------	-----	-----

SECURITY

No major problems. Two Guards are to be transferred to the Ground Services contract this next month.

PERSONNEL

A decrease of two TCN and one [REDACTED] personnel came about through the transfer of two and the surplus of one employee. A continued planned decrease can be expected next month - (See attached chart for totals)

Continued effort is being placed on reducing outstanding CTC, but we are reaching the point where it is difficult, and in some cases impossible, to release persons for CTC without incurring more. Nevertheless we plan to further reduce this company obligation.

FISCAL : No problems.

LEGAL : No problems.
